

FABRIC GUARD

Fabric treatment

Description :

Auto-Chem Fabric Protector is used to waterproof car seats and car mats. Once treated, it helps repel dirt, prevents stain penetration, increases wear resistance, prevents tarnishing and makes cleaning easier. Effective and safe application on all types of fabrics, such as velvets, canvases, carpets and convertible tops.

Advantages :

- Does not contain an active agent known to damage the ozone layer.
- Makes it easier to clean salt stains from carpets.
- Can be used as a protector on clothing, winter boots, armchairs, tents, canvases and umbrellas.
- Increases the resistance of fabrics to common stains: coffee, soft drinks and food.

Instructions :

Spray the product at a distance of 30 centimeters between the nozzle and the surface to be treated. Apply a sufficient amount to wet the surface. Make sure that the surface to be treated is covered and let surface dry for 15 minutes before reapplying a cross-coat. Total protection will be attained after 24 hours.

Do not apply on leather or suede. Do not spray on paint or windows, for use on cabriolet roof protect these surfaces.

Caution :

- Use safety goggles and a NIOSH-approved respirator mask to prevent eye irritation and inhalation.
- Wear clothes and gloves that are resistant to chemicals (nitrile, neoprene or PVC).
- **To prevent the inhalation of fumes, do not use with a pressure gun. Apply in a well ventilated area. Do not breathe in fumes.**
