

## **DRESS UP** Rubber & Vinyl Dressing

### Description :

DRESS UP is a concentrated water-based protector ideal for tires, door, window moldings, bumper moldings, carpets, dashboards, soft roofs and vinyl seats.

Gives a new look to vinyls. Prevents drying and cracking of vinyls and rubbers. Keeps the finish for several weeks. Fence chemical that seals against dirt.

### Advantages :

- Shines and protects rubber, vinyl and plastic surfaces.
- Biodegradable water-based formula, free from aggressive solvents.
- Can be diluted, the level of gloss varies according to the dilution.
- Safe for body shops.
- Satin finish when applied to a wet surface.
- Glossy finish when allowed to air dry.

### Instructions :

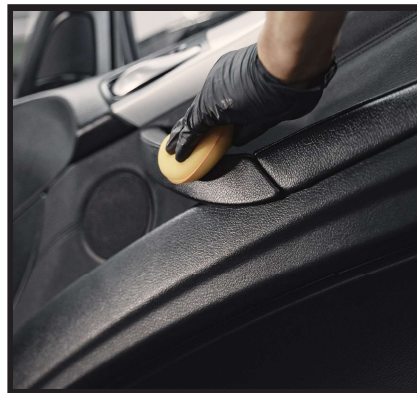

#### Tires

1. Spray product on a # 4021 foam application pad.
2. Apply to the tire with the foam pad.
3. Allow product to dry before using vehicle.

#### Interior & Exterior

1. Spray product on a # 4021 foam application pad.
2. Apply to the desired surface with the foam pad.
3. Allow the product to dry before using the vehicle.

\* Always apply DRESS UP on a surface cleaned with the appropriate Auto-Chem products \*
