

BIG O POLISHER

21mm D/A Double Action Polisher

Description :

The AC Pro polisher offers the flexibility and power to create a shiny finish while eliminating the risk of burning paint. Using a 21mm orbit that covers a larger area than a conventional polisher. It easily removes defects and scratches, then provides extreme shine.

Removes spirals, scratches, holograms and other paint defects faster and easier than any other device.

A high performance double action polisher for perfect polishing result.

1- Double rubber grips and ergonomic head, providing higher level of comfort.

4- Electronic control to adjust speed.

3- Trigger lock button allows power trigger to be held in place while polishing.

5- CNC precision machining steel balanced and Japanese bearing, minimizes vibration.

2- Power trigger under the grip; convenient and safe.

Technical characteristics:

- Orbit Diameter Size: 21mm
- Rated Voltage: 110V-230V AC
- Rated Power: 900W
- Rated Current: 7.5amp
- Frequency: 60HZ/50HZ
- Variable Speed: 1800-4800 OPM
- Velcro Backing Plate: 150mm (6")
- Polishing Pad: 150-160mm (6"-6.5")
- Net Weight: 2.9kgs
- Power Cord: 4.0 meters
